

Dear FCC, Broadcast radio has allowed itself to become obsolete. The public has rightly moved away from the vast wasteland of loudmouth DJ's to something that they want, XM radio. Broadcast radio used to be fun and interesting. Now it is just trash.

I choose to pay for my radio service. I choose NOT to listen to broadcast radio since it has lost what it once had. Broadcast radio is no longer serving the public interest (PICAN wasn't it???) and has become trash. XM cannot be hurrtng these large radio groups with a few traffic reports.

Please reject the NAB's petition 04-160. It's the broadcasters that need to look at what they are broadcasting and not just spew junk into the air and driving listeners away. We moved to XM for a reason. The NAB needs to wakeup and remember the good old days of radio before I will come back. You are starting cleaning it up but until it gets better why should I not be able to choose real entertainment and not shock radio. I made my choice and hope you will support me.

Thank you for your time,

Bill Farrington
